No. of participants:

- 3 members per team.

Bot Information (Specifications)

Parameter	Specification
Weight Class	Maximum 5.0 kg
Dimensions	Maximum 20 cm length × 20 cm width × 20 cm height
Battery	Only battery operated robots are allowed. 12V/24V DC supply, Li-ion or Lead Acid batteries are allowed. Direct AC isn't allowed.
Control	Wireless remote control only.

General Guidelines

- Match Duration: Each battle will last for exactly 3 minutes.
- Immobilization (Knockout): A bot is considered knocked out if it fails to show controlled linear movement for 10 consecutive seconds. A referee will perform a 10-second countdown.
- Fixture Format: Teams will compete in a randomized knockout bracket system. Winners advance to the next round. Double elimination may be used depending on the final number of registrations.
- Will be held in a circular arena.

Weapons Allowed

- Pushers, Wedges, and Rammers
- Flippers and Lifters: Electric or servo-driven mechanisms
- Grabbers and Crushers
- Axes and Hammers: Overhead striking weapons driven by electrical motors.
- Spinners

Prohibited Attachments

- Fire, pyrotechnics, or explosives of any kind.
- Liquids, foams, or corrosive chemicals.
- Entanglement devices (e.g., nets, tape, strings, cloth).
- Untethered projectiles.
- Radio jamming equipment, EMPs, or high-voltage tasers/shock weapons.
- Pneumatic or hydraulic systems utilizing dangerous high pressures (unsuitable for school safety standards).
